Reviews

The book is fantastic and great. It is definitely basic but shocks in the 50 percent in the pdf. Its been printed in an remarkably basic way and it is just soon after i finished reading this publication in which really changed me, change the way i believe.

Excerpt: . . . my wife, my love has passed to botanical and biological subjects, and of them I have made many hundreds of negatives. One of our favorite collecting grounds is along the old Georgetown Canal; and last spring I made several views of this historic locality, of which an heretofore unpublished one is reproduced in Figure i. The scene here shown is hardly more than a couple of miles from the environs of Washington, and it is readily reached by the suburban electric cars. About five hundred yards to the right, below the towpath, one comes to the Maryland banks of the Potomac River, and all up through that region the out-of-door naturalist finds, at all seasons, much to interest him. At one place the Papaw trees grow luxuriantly; and wherever we find them we are sure to meet with speci mens of the wonderful black and white Zebra butterfly, with the long tails to its lower wings, starting from a brilliant scarlet spot on either side. This insect is a great favorite with butterfly collectors on account of the remarkable variations it presents, and I have published photographs of it many times. In the spring, flowers of many varieties are found in this region, and for this reason it is also a favorite one for the local botanists. At this season we meet with such plants as the purple Trillium in full bloom, the dogs-tooth violet, several kinds of violets, the star of Bethlehem, cowslip,...
